

The Silicon Valley Leadership Group is organizing two water workshops for members and the broader community, to learn more about strategies for local water conservation as well as state water management and policy options. Drought conditions, impending Delta pumping curtailments in 2008, controversy over water bonds, and climate change pose challenges to clean, reliable sources of water in our workplaces and in our homes. In order to prepare for an uncertain water future, we all need to do our part! We invite you to join us for the following two workshops.

**Silicon Valley Water Workshop I:
Savings Opportunities for your Workplace and
Employees**

December 11, Tuesday, 8:30am - 12:00pm

Register here: <http://doubleknot.com/Registration/CalendarDetail.asp?orgkey=1877&activitykey=329735>

Speakers:

- Chris Brown, Executive Director, California Urban Water Conservation Council
- Hossein Ashktorab, Ph.D., Water Use Efficiency Manager, Santa Clara County Water District
- Bob Day, Director of Customer Service, San Jose Water Company
- Case study from Silicon Valley employer on water efficient technology

Topics to be covered include:

- The role of conservation in state-wide water management.
- Local programs and rebates available for commercial, industrial, and residential water efficiency.
- How water conservation can also save energy, and reduce climate change impacts, in your business.
- Examples of successfully implemented water efficiency efforts
- Residential water conservation methods to share with employees.

Cost: \$20; Pre-registration required.

On-site registrations will only be accepted if space allows. Continental breakfast will be provided.

Location:

Affymetrix Auditorium, 3380 Central Expressway, Santa Clara

Directions: <http://www.affymetrix.com/site/contact/directions.jsp?loc=sccentral>
